ISTE252/770
Lab 4
DUE: per dropbox date
Create a Cordova project called: YourLastNameCordovaApp (ex. LaBelleCordovaApp)

The following list of requirements also serves as the rubric, each item is 2 points each.

- Change the contents of the <title> tag
- Change the first <h1> tag to contain your name.
- Change the Icon
- Add an <h3> tag with some text
- Change the color of the 'event received' class
- Change the text in the 'event received' div
- Make any other changes to demonstrate your understanding of this app
- Add the Android platform
- Build and run the app on an Android emulator
- Zip up the whole project folder and put in the appropriate dropbox by the due date in the dropbox.

Below is just an example: You can use any icon, text, and color you wish.
